From the President

Hello Members

Committee tonight made some major decisions about how the Club navigates this shutdown.

Firstly, we determined that Members will enjoy exclusive tee times, from 7.30am to 1.00pm from Wednesday to Friday and from 7.30am to 2.00pm on Saturday.

After those times, and on other days, Members may of course book to play but will share the course with green fee players (who will also be required to book through the phone number on our website).

Member booking times will continue to be loaded as normal on the website. We will reconfigure the site to display the new arrangements but if you are already booked your booking will be honoured.

Under the Government's directive, competition is suspended until further notice. Committee also determined that handicaps will be frozen until competition resumes - no social golf cards will be accepted by our handicappers.

All practice facilities will remain closed until further notice as the Club does not believe the social distancing required by Government can be guaranteed.

Golf must be played in singles or pairs only. Face masks must be worn at all times unless eating or drinking, or if you have shown the Secretary a medical exemption. All other arrangements as per the past few months.

Committee is determined to abide by both the letter and spirit of COVID directives. We consider social golf to be a welcome privilege rather than our right: Most other sports people are locked out of their sport. Please ensure you do your bit to help the Club retain this privileged position.
